CONTENTS OF VOLUME 63

NUMBER 1, 14 JANUARY 1972

SMITH, J. D., ARBER, W. and KÜHNLEIN, U., Host Specificity of DNA produced by *Escherichia coli*. XIV. The Role of Nucleotide Methylation in *in vivo* B-specific Modification 1

KÜHNLEIN, U. and ARBER, W., Host Specificity of DNA produced by *Escherichia coli*. XV. The Role of Nucleotide Methylation in *in vitro* B-specific Modification 9

BIRNSTIEL, M. L., SELLS, B. H. and PURDOM, I. F., Kinetic Complexity of RNA Molecules 21

CORY, S., ADAMS, J. M., SPAHR, P.-F. and RENSING, U., Sequence of 51 Nucleotides at the 3′-End of R17 Bacteriophage RNA 41

BROWN, D. D., WENSINK, P. C. and JORDAN, E., A Comparison of the Ribosomal DNA's of *Xenopus laevis* and *Xenopus mulleri*: the Evolution of Tandem Genes 57

BROWN, D. D. and BLACKLER, A. W., Gene Amplification proceeds by a Chromosome Copy Mechanism 75

BROWN, F. R., III., DI CORATO, A., LORENZI, G. P. and BLOUT, E. R., Synthesis and Structural Studies of Two Collagen Analogues: Poly (L-prolyl-L-seryl-glycyl) and Poly (L-prolyl-L-alanyl-glycyl) 85

BROWN, F. R., III., HOPFINGER, A. J. and BLOUT, E. R., The Collagen-like Triple Helix to Random-chain Transition: Experiment and Theory . . . 101

DAVIES, R. J. H., Kinetics of Dissociation of Polynucleotide–Monomer Complexes 117

BRUNORI, M., GIACOMETTI, G. M., ANTONINI, E. and WYMAN, J., Denaturation of *Aplysia* Myoglobin. Equilibrium Study 139

ENGLANDER, J. J., KALLENBACH, N. R. and ENGLANDER, S. W., Hydrogen Exchange Study of some Polynucleotides and Transfer RNA . . . 153

LETTER TO THE EDITOR—

ENGLANDER, J. J. and VON HIPPEL, P. H., Slow Exchange of the "Outside" Amino Hydrogens of DNA 171

ERRATUM 179

ANNOUNCEMENT 181

NUMBER 2, 28 JANUARY 1972

SCHALLER, H., OTTO, B., NÜSSLEIN, V., HUF, J., HERRMANN, R. and BONHOEFFER, F., Deoxyribonucleic Acid Replication *in vitro* 183

DAWID, I. B., Mitochondrial RNA in *Xenopus laevis*. I. The Expression of the Mitochondrial Genome 201

DAWID, I. B. and CHASE, J. W., Mitochondrial RNA in *Xenopus laevis*. II. Molecular Weights and Other Physical Properties of Mitochondrial Ribosomal and 4 s RNA 217

KUMAR, A. and WARNER, J. R., Characterization of Ribosomal Precursor Particles from HeLa Cell Nucleoli 233

ADAMSON, S. D., YAU, P. M., HERBERT, E. and ZUCKER, W. V., Involvement of Hemin, a Stimulatory Fraction from Ribosomes and a Protein Synthesis Inhibitor in the Regulation of Hemoglobin Synthesis 247

DARKE, A., FINER, E. G., FLOOK, A. G. and PHILLIPS, M. C., Nuclear Magnetic Resonance Study of Lecithin–Cholesterol Interactions 265

YAMAGATA, H. and UCHIDA, H., Chromosomal Mutations affecting the Stability of Sex-factors in *Escherichia coli* 281

WRIGHT, C. G., HESS, G. P. and BLOW, D. M., Structure of Crystalline Methyl-chymotrypsin 295

SUNDARARAJAN, P. R. and MARCHESSAULT, R. H., Light Scattering by Cellulose. IV. Fibers with Helical Morphology 305

LETTER TO THE EDITOR—

LEDERER, K., Small Angle X-ray Scattering Measurements with Dilute Solutions of Bovine Fibrinogen 315

ANNOUNCEMENT 321

NUMBER 3, 14 FEBRUARY 1972

SAUNDERS, G. F., SHIRAKAWA, S., SAUNDERS, P. P., ARRIGHI, F. E. and HSU, T. C., Populations of Repeated DNA Sequences in the Human Genome . 323

BOLING, M. E., SETLOW, J. K. and ALLISON, D. P., Bacteriophage of *Haemophilus influenzae*. I. Differences between Infection by Whole Phage, extracted Phage DNA and Prophage DNA extracted from Lysogenic Cells . . 335

SETLOW, J. K. and BOLING, M. E., Bacteriophage of *Haemophilus influenzae*. II. Repair of Ultraviolet-irradiated Phage DNA and the Capacity of Irradiated Cells to make Phage 349

WHITFIELD, B. L. and BILLEN, D., *In vivo* Methylation of *Escherichia coli* DNA following Ultraviolet and X-irradiation 363

NEWELL, P. C., FRANKE, J. and SUSSMAN, M., Regulation of Four Functionally Related Enzymes during Shifts in the Developmental Program of *Dictyostelium discoideum* 373

HAYWARD, G. S. and SMITH, M. G., The Chromosome of Bacteriophage T5. I. Analysis of the Single-stranded DNA Fragments by Agarose Gel Electrophoresis 383

HAYWARD, G. S. and SMITH, M. G., The Chromosome of Bacteriophage T5. II. Arrangement of the Single-stranded DNA Fragments in the T5$^+$ and T5st(0) Chromosomes 397

SUZUKI, Y. and BROWN, D. D., Isolation and Identification of the Messenger RNA for Silk Fibroin from *Bombyx mori* 409

CASEY, J., COHEN, M., RABINOWITZ, M., FUKUHARA, H. and GETZ, G. S., Hybridization of Mitochondrial Transfer RNA's with Mitochondrial and Nuclear DNA of Grande (wild type) Yeast 431

COHEN, M., CASEY, J., RABINOWITZ, M. and GETZ, G. S., Hybridization of Mitochondrial Transfer RNA and Mitochondrial DNA in Petite Mutants of Yeast 441

TSONG, T. Y., BALDWIN, R. L. and MCPHIE, P., A Sequential Model of Nucleation-dependent Protein Folding: Kinetic Studies of Ribonuclease A . . 453
Appendix—ELSON, E. L., Analysis of the Steady-state Approximation for the Sequential Model 469

WINTERHALTER, K. H. and WÜTHRICH, K., Structural Investigations of Modified Haemoglobins by Nuclear Magnetic Resonance Spectroscopy . . . 477

SHIMADA, K., WEISBERG, R. A. and GOTTESMAN, M. E., Prophage Lambda at Unusual Chromosomal Locations. I. Location of the Secondary Attachment Sites and the Properties of the Lysogens 483

ANGERER, L. M. and MOUDRIANAKIS, E. N., Interaction of Ethidium Bromide with Whole and Selectively Deproteinized Deoxynucleoproteins from Calf Thymus 505

RAYNAUD, A. and OHLENBUSCH, H. H., Buoyant Density of Native Chromatin . 523
Appendix—Theoretical Considerations 534

KING, M. V. and YOUNG, M., Electron Microscopy of Side-by-side Arrays of Myosin and Light Meromyosin-C 539

BAAS, P. D. and JANSZ, H. S., Asymmetric Information Transfer during ϕX174 DNA Replication 557

BAAS, P. D. and JANSZ, H. S., ϕX174 Replicative Form DNA Replication, Origin and Direction 569

Schochetman, G. and Perry, R. P., Characterization of the Messenger RNA Released from L Cell Polyribosomes as a Result of Temperature Shock . 577

Letters to the Editor—

Schochetman, G. and Perry, R. P., Early Appearance of Histone Messenger RNA in Polyribosomes of Cultured L Cells 591

Inouye, M., Reversal by Sodium Chloride of Envelope Protein Changes Related to DNA Replication and Cell Division of *Escherichia coli* . 597

Kannan, K. K., Fridborg, K., Bergstén, P.-C., Liljas, A., Lövgren, S., Petef, M., Strandberg, B., Waara, I., Adler, L., Falkbring, S. O., Göthe, P. O. and Nyman, P. O., Structure of Human Carbonic Anhydrase B. I. Crystallization and Heavy Atom Modifications 601

Morse, D. E. and Guertin, M., Amber *suA* Mutations which Relieve Polarity 605

Index to Volume 63

Tandem gene evolution, comparison of the ribosomal DNA's of *Xenopus laevis* and *Xenopus mulleri*, 57
Temperature shock, effect on L-cell polyribosomal messenger RNA, 577
Thymus from calf, interaction of ethidium bromide with whole and selectively deproteinized deoxynucleoproteins, 505
Transfer RNA and DNA, mitochondrial, of petite mutants of yeast, hybridization studies, 441
— — — polynucleotides, hydrogen exchange study, 153
— RNA's, mitochondrial, hybridization with mitochondrial and nuclear DNA of grande yeast, 43
Triple-helix to random-chain transition, collagen-like, experiment and theory, 101
Tsong, T. Y., Baldwin, R. L., McPhie, P. & Elson, E. L., A sequential model of nucleation dependent protein folding: kinetic studies of ribonuclease A, 453, 469
Tst(0) (see Bacteriophage)

Uchida, H. (see also Yamagata, H.), 281
Ultraviolet irradiated *Haemophilus influenzae* bacteriophage DNA, repair and the capacity of irradiated cells to make phage, 349
— and X-irradiation, subsequent *in vivo* methylation of *Escherichia coli* DNA, 363

Waara, I. (see also Kannan, K. K.), 601
Warner, J. R. (see also Kumar, A.), 233
Weisberg, R. A. (see also Shimada, K.), 483
Wensink, P. C. (see also Brown, D. D.), 57
Whitfield, B. L. & Billen, D., *In vivo* methylation of *Escherichia coli* DNA following ultraviolet and X-irradiation, 363
Winterhalter, K. H. & Wüthrich, K., Structural investigations of modified haemoglobins by nuclear magnetic resonance spectroscopy, 477
Wright, C. G., Hess, G. P. & Blow, D. M., Structure of crystalline methyl-chromotrypsin, 29
Wüthrich, K. (see also Winterhalter, K. H.), 477
Wyman, J. (see also Brunori, M.), 139

X-ray scattering measurements, small-angle, from dilute solutions of bovine fibrinogen, 315
X- and ultraviolet-irradiation, subsequent *in vivo* methylation of *Escherichia coli* DNA, 363
Xenopus laevis mitochondrial RNA, the expression of the mitochondrial genome, 201
— — — —, molecular weight and other physical properties of mitochondrial ribosomal and 4 RNA, 217
— — and *Xenopus mulleri* ribosomal DNA's compared, tandem gene evolution, 57

Yamagata, H. & Uchida, H., Chromosomal mutations affecting the stability of sex-factors in *Escherichia coli*, 281
Yau, P. M. (see also Adamson, S. D.), 247
Yeast, grande, mitochondrial and nuclear DNA hybridization with mitochondrial tRNA's, 431
— petite mutants, studies on hybridization of mitochondrial tRNA and DNA, 441
Young, M. (see also King, M. V.), 539
